FY 2013 – 2014 ANNUAL BUDGET**

General Fund

As is the case every year, the most significant challenge the Administration faces in formulating a budget for the coming year is projecting the condition of the local economy and the associated revenue to be collected. For the 2013-2014 Budget, the revenue estimates continue to be built on a conservative three year trend analysis and foreseeable building permits. We believe the decline in the housing market and new construction has halted and will remain stagnant for the next three years. For Milledgeville, the slowing housing market and commercial restructuring has directly impacted a number of the City's larger revenue sources, including construction revenue, businesses permits, and sales tax. In addition, the number of foreclosure and the depreciation of the fair market value of residential and commercial properties directly impact the property taxes that represent a large portion of the City's revenue stream. However, the City's tax digest has remained considerably stable throughout the economic downturn.

General Fund revenues are projected to total \$12,549,413 which is 3% or \$293,780 more than the budgeted General Fund Revenues for the FY 2012/2013. The majority of general fund revenue comes from various taxes contributing 50%. The percentage of general fund revenues provided through sales tax is forecasted at 17%.

The General Fund provides a wide array of city services including police, fire, municipal court, street maintenance, general administration and other services. General Fund expenditures are budgeted at \$12,549,413 contributing to a balanced budget.

Revenue and expenditures are rounded which will result in inconsequential variations among some of the totals.
